ways of solving them.

Plans were made at the meeting to fly Madden to Washington May 21 to meet with area Congressmen and the Secretary of Agriculture. He will present the problems and needs of this area at this meeting. This is part of a state-wide program of the Farmers Union and there will be representatives from all over the state in Washington at that time

The directors of the organzation stated that their goal was to have every farmer in the county a member of the

# A Deluge Here Wednesday Dumps 2.79 Inches Rain; More Falling

A deluge Wednesday afternoon cut visibility here for a time and dumped water which ran above street curbings in most of town and in places the water completely covered the streets.

The rain Wednesday totaled 2.79 at 4 p.m. and it was still raining.

Some small hail fell early in the afternoon but no damage had been determined by press time. At 3:25 p.m. in the midst of pouring rain, the

Hamlin Volunteer Fire Department answered a call to 245 N. E. Ave. B for a fire which was reported to have started at the cook stove. Showers Sunday and Mondy filled many stock

tanks and put needed water in others. The South Lake had caught 19 inches in the early week showers but the rains Wednesday are expected to raise the level considerably. Lavy showers were reported on the South Lake watershed before noon Wed-

The Monday and Tuesday rain was recorded at 1.58 bringing the week's total to 4.37.

The last major rain was May 8, 1964, 1.79.

What I'm getting at is that I read in a newspaper last night that the automobile industry expects to produce nine million cars this year. This is first-rate business news, but it has its drawbacks. I mean, we're producing cars a lot faster than we're getting rid of them. Makes no difference how hard and conscientiously people try, they can't get the wreck rate up to the production rate.

Therefore, say we're gaining four of five million cars a year. In ten years, instead of having 30 million, we'll have 75 or 80 million. In twenty years, 125 million. In thirty years, 150 million.

by Barbara Craig Someone asked me other day "What are you going to your column this week?" With a great deal of truth in the statement, I said "I don't know."

It gets rather difficult to get material for this space each week and after the experiences I have had I hesitate to use personalities. Twice now I have been wrong by the time the paper reached the readers. I think I embarrassed the Pritchard children when I had them home with the mumps the day they returned to school. And then, just last week, I had Grady Allen back at his junior high coaching spot, and that very day he went to the hospital, again. As of this writing he is in schoo! and I hop? I am not pro-

And this is the limit! I had decided not to mention childhood diseases in this space anymore. And what happens? I get the three day measles. So back home with typewriter and telephone, having been back at work only one day after getting our youngest back in school following the

The Hambrights, Elwood and Diane, and daughters, Terry, a third grader, Tammy, are making plans to move to Robert Lee at the close of school. Elwood who has been here about three years with Santa Fe has been transferred o San Angelo and the family chose housing in Robert Lee where Diane's parents live.

They have found what sounds like a perfect spot to live, just off the lake and onehalf mile from the golf course, since Elwood enjoys fishing and golf. Also, Diane is looking forward to being back near her parents. She has been away five years.

She was telling her children about the house they have rented in Robert Lee and mentioned how close they would be to the swimming pool. She added, "They have a kiddy pool," to which five-year old Tammy replied, "I don't have a kitty." After taking a minute to fully comprehend her daughter's statement, the patient mother explained about the kiddy pool.

Sunday evening, about nine o'clock, the announcer on television broke in between shows with: "Five killed in auto

### Husband of Hamlin Girl Receives Flying Award

HOMESTEAD, Fla. - Captain Bennie F. Leatherwood, whose wife, Shirley, is the daughter of Loy Nelson of 729 S. E. Ave. "A", has received a special combat crew flying award at Homestead AFB, Fla., as a member of the Strategic Air Command (SAC).

Captain Leatherwood, a navigator, was honored in recognition of ten years of accident-free flying in SAC which keeps the nation's intercontinental missiles and jet bombers on constant alert.

A graduate of Thrall (Tex.) High School, Captain Leatherwood is the grandson of F. H. Shiller of Thrall. He was commissioned through the aviation cadet program.

### Frozen Foods Discussed at HD Leaders Meeting

"Frozen Foods" was the leader training meeting conducted in the office of Mrs. Mary Y. Newberry, Jones County Home Demonstration Agent with 25 women attending. The demonstration was to give the women different ways of using the four food groups in frozen desserts. They were also given pointers in planning meals in accordance with the four food groups which are: vegetables and fruit, bread and cereals; meat and

### **Notaries Public** Must File Month Early This Year

Jones County Notaries Public must renew their appointments a month early this year due to a new law signed by Governor John Connally, County Clerk, Roy Thorn said.

In past years, notaries were required to file their bonds with the county clerk's office between June 1 and 10 of each odd-numbered year.

Now, due to the new law, they must file between May 1 and 15 he said. The filing fee for Notaries

will be \$4.00. The change in dates was voted to split up the filing times to reduce confusion, according to information on the new law.

The Tenth Amendment of the Constitution: "The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people."

This article is the key to the Constitutional Revolution and the diminution of State rights which has been taking place for the last 30 years.

The Presid nt of the American Bar Association in 1982 said in his Presidential Address. 'The balance of power between the Federal and State Governments has shifted dramatically since the Constitution was adopted in 1787."

Two prevailing conditions

have obviously been the reason for changes. One is the growing power of the Federal Covernment over the Nation's economic and social affairs The other is the growing application of the rights guaranteed to individuals by the first eight Amendments to the Constitution. For instance, for the 1800, or even in 1925, that every State must, in criminal cases, provide legal counsel for those too poor to pay for it.

Association, long recognized as a force among conservative lawyers, praised the decision by the Court, which was aprida. They approved it as a great advance in the administration of criminal justice.

The Supreme Court has been involved in both aspects of this Revolution. In the late 1930's it removed the limitation it had previously placed on Federal Power In the years since, the Court has been placing additional restrictions on both the Federal and State Governments in their relationship with individuals.

In the early depression period of the 1930's, many critics felt the Court was hampering the Nation's growth. It struck down Laws concerning rate regulation, child labor, working hours, agricultural and industrial regulation. It interposed its power against the will of a great majority in Congress, and presumably against that of the people.

In the late 1930's, the Court backed away from these earlier actions and made it possible for Congress and the President to exercise a power they had been seeking. It was then that the power of State Governments - or States' rightsmay have suffered its greatest decline

ernments had to step out. In many instances State Governments were unable to cope with changes in their environment, such as the growth of cities and commerce which flowed across State lines in a way that was never thought of when the Constitution was

Once that part of the Constitutional Revolution was accomplished, the Supreme Court turned its attention to the reverse side of the coin of increased Governmental powers the impingement of Government on in dividual liberties.

By applying many of the restrictions of the Bill of Rights to the States, the Court has brought the legal processes of the States closer to those of the Federal Government. Proir to this period the guarantees of freedom of religion, the right to assemble and petition for redress of grievances, the protection against unreasonable searches and cruel or unusual punishment had never been enforced against the

Until the Florida decision, the Supreme Court had never taken cognizance of the right to counsel by one accused of crime. Similarly, the 14th Amendment's guarantee of equal protection of the Laws had not been broadened in its application to racial problems and voting guarantees, particularly as it applies to all Elections-Federal, State and Local.

# Our children pioneers?

Take a thoughtful look into the future. This much is clear: Whether today's youngster moves out onto the frontiers of space or the ocean depths; whether he helps push to new horizons of medicine, law, farming or international relations, the future belongs to the fit. The future belongs to those vigorous enough to live it, and shape it!

Medical authorities put it this way: "It is a tragic waste to highly educate the minds of our children, and neglect the physical conditioning that can help them participate in the future to the full extent of their abilities." Warnings like this have sparked action.

The President's Council on Physical Fitness has developed programs that any school can initiate, regardless of limitations in facilities or budget. We're making progress. Yet even today, less than half our school children get the daily minimum of vigorous exercise they need for adequate physical development.

How about your schools? Are they providing for physical fitness as part of the sound education your children need to carve out their share of the future? You parents can help see that they do. Write: The President's Council on Physical Fitness, Washington, D.C., for, information.

Lubbock. - Cotton farmers are seeking ways to get the boll weevil, the pest that eats up profits by the millions, to feed himself to death - but not on cotton.

A research grant for the work has been made to Southern Research Institute, Birmingham, Ala., according to Roy Davis of Lubbock and Jack Funk of Harlingen. Texas trustees for the Cotton Producers Institute.

Scientists are working to isolate and identify a substance in the cotton plant which they know causes the boll weevil to feed. Next step will be to find a way to produce the substance, or feeding stimulant, artificially."

This would open up new children all road the school approaches for farmers to use bus Friday afternoon then in achieving less expensive and went to the pasture to roast more effective control of the wieners, eat hot dogs and play

> With use of an attractant, also found in the cotton plant, for example, the boll weevil could be lured to a selected non-cotton field area. There the feeding stimulant would cause the insect to consume insecticides or disease-producing organisms.

Another possibility would be use of the feeding stimulant with another recently discovered stimulant - one that would cause the weevil to lay eggs on other plants. Thus the larvae which normally feed only on cotton would starve to

### JEHOVAH'S WITNESSES

Jehovah's Witnesses' threeday training program in Abilene was concluded Sunday when H. A. Fetzik, district supervisor, spoke on the subject, "The Moral Breakdown-What Can Be Done About It?'

In speaking to the 450 persons assembled, Fetzik said, Today's indifference toward Bible principles is bringing a bout the immoral conditions mentioned by Paul in Second Timothy 3:1-5, 'in the last days critical times hard to deal with will be here. . . "

"Jesus aptly describes our conditions as, 'men become faint out of fear and expectation of things coming upon the inhabited earth," Fetzik said. "but he also gave us a remedy for the moral breakdown when he taught us to pray, 'Our Father in heavens, Let your kingdom come. Let your will take place as in heaven, also upon earth'.'

The Institute is supporting the project at a level of \$31,-750 annually. Matching funds are being provided by the U. S. Department of Agriculture. This and other Institute projects are serviced by the National Cotton Council.

### Annual Haskell Quarter Horse Show Set May 22

The ninth annual Haskell Quarter Horse Show will be held in Haskell Saturday, May 22, with a record breaking number entries expected.

Around 600 programs, containing pertinent information on the American Quarterhorse Association approved show here, which will have 14 halter classes and 10 performance classes, plus champion of the show, have been mailed out to horse breeders and barrel racing enthusiasts over the southwest area.

Class sponsors are being secured at this time by Dr. T. W. Williams, Haskell; Raymon Liles, Weinert, and Cecil Eager of Stamford.

Horse show superintendent, Felix Mullino, states that from inquiries being received, this year's show will probably top last year's event, which had 145 entries, and 108 horses en-

## Seniors Leave for New Orleans

by Nancy Ford Carolyn Reynolds Marolyn Reynolds

Adorned with wild straw hats and outlandish sunglasses, fifty senior students lugged their overloaded suitcases to the buses Tuesday noon. Eagerly awaiting the long-planned trip, many gazed once more at the carefully selected itinerary, which revealed high lights of the trip - a tour of the Louisiana Capitol at Baton Rouge an evening at Lake Ponchartrain in New Orleans: a full-day tour of New Orleans; an exciting evening at the Homemaking lab. the Blue Room of the Roosewelt Hotel; a tour of the Space Center at Houston with a quick look at the Astro Dome; and a tour of the Texas Capitol in Austin. As the buses pulled out of Hamlin, each student, sponsor, and parent responded earnestly to the cry, NEW ORLEANS OR BUST!

The Hambrights, Elwood and Diane, and daughters, Terry, a third grader, Tammy, are making plans to move to Robert Lee at the close of school. Elwood who has been here about three years with Santa Fe has been transferred to San Angelo and the family chose housing in Robert Lee where Diane's parents live.

They have found what sounds like a perfect spot to live, just off the lake and onehalf mile from the golf course, since Elwood enjoys fishing and golf. Also, Diane is looking forward to being back near her parents. She has been away five years.

She was telling her children about the house they have rented in Robert Lee and mentioned how close they would be to the swimming pool. She added, "They have a kiddy pool," to which five-year old Tammy replied, "I don't have a kitty." After taking a minute to fully comprehend her daughter's statement, the patient mother explained about the kiddy pool.

# .. and God bless Mother

This little one is aware of his mother's tender care, and responds with love. It would be wonderful if all of us showed our love for our Mothers all of the time. Even if we have been a little neglectful, we have an opportunity to go all out this Sunday, and express to her our love and appreciation for her goodness to us. The Bible tells us to "Honour thy Father and thy Mother,"

### Notaries Public Must File Month Early This Year

Jones County Notaries Public must renew their appointments a month early this year due to a new law signed by Governor John Connally, County Clerk, Roy Thorn said.

In past years, notaries were required to file their bonds with the county clerk's office between June 1 and 10 of each odd-numbered year.

Now, due to the new law, they must file between May 1 and 15 he said.

The filing fee for Notaries will be \$4.00.

The change in dates was voted to split up the filing times to reduce confusion, according to information on the new law.

# Our children pioneers?

Take a thoughtful look into the future. This much is clear: Whether today's youngster moves out onto the frontiers of space or the ocean depths; whether he helps push to new horizons of medicine, law, farming or international relations, the future belongs to the fit. The future belongs to those vigorous enough to live it, and shape it!

Medical authorities put it this way: "It is a tragic waste to highly educate the minds of our children, and neglect the physical conditioning that can help them participate in the future to the full extent of their abilities."

Warnings like this have sparked action.

The President's Council on Physical Fitness has developed programs that any school can initiate, regardless of limitations in facilities or budget. We're making progress. Yet even today, less than half our school children get the daily minimum of vigorous exercise they need for adequate physical development.

How about your schools? Are they providing for physical fitness as part of the sound education your children need to carve out their share of the future? You parents can help see that they do. Write: The President's Council on Physical Fitness, Washington, D.C., for, information.

are seeking ways to get the boll weevil, the pest that eats up profits by the millions, to feed himself to death - but not on cotton.

A research grant for the work has been made to Southern Research Institute, Birmingham, Ala., according to Roy Davis of Lubbock and Jack Funk of Harlingen, Texas trustees for the Cotton Producers Institute.

Scientists are working to isolate and identify a substance in the cotton plant which they know causes the boll weevil to feed. Next step will be to find a way to produce the substance, or feeding stimulant, artificially.

This would open up new approaches for farmers to use in achieving less expensive and more effective control of the

With use of an attractant, also found in the cotton plant, for example, the boll weevil could be lured to a selected non-cotton field area. There the feeding stimulant would cause the insect to consume insecticides or disease-producing organisms.

Another possibility would be use of the feeding stimulant with another recently discovered stimulant - one that would cause the weevil to lay eggs on other plants. Thus the larvae which normally feed only on cotton would starve to

In the Junior Division Kenneth Jones, Russell Letz and Rita Baldree, Junior Poultry Judging team won 1st.

Lynn Palmer and Patti Bradshaw won 3rd in Civil Defense Demonstration and Herbie placed 1st. in Tractor Driving.

Adults who accompanied the Old Glory 4-H'rs were Mrs. Bill Tipton, Mrs. Jack Jones, Mrs. Normanda Sander, Mrs. Thelma Smith and Mrs. Bernice White.

Mr. and Mrs Richard Johnson and children, Tim and Julie, spent last weekend here with his parents, Mr. and Mrs. Bunyan Johnson.

Mr. and Mrs. Charlie Letz visited in Monahans last week end with their daughter and family, Mr. and Mrs. Jerry Callicoatte, Guy and Jill.

Mother's Day visitors in the home of Mrs. Katie Gerloff were her sons and wives, Mr. and Mrs. Raymond Gerloff of Abilene and Mr. and Mrs. Jackie Gerloff of Odessa, also Mrs. Emma Gerloff.

Mr. and Mrs. J. G. Pope of Hempstead were here last weekend visiting Mrs. Pope's mother, Mrs. W. G. Wienke, also her sister and family, the Garrett Spitzers. Also visiting with Mrs. Wienke and the Spitzers was the Spitzer's daughter and family, Mr. and Mrs. Dean Letz, Jeff and Craig of Abilene.

JEHOVAH'S WITNESSES

Jehovah's Witnesses' threeday training program in Abilene was concluded Sunday when H. A. Fetzik, district supervisor, spoke on the subject, "The Moral Breakdown-What Can Be Done About It?"

In speaking to the 450 persons assembled, Fetzik said, Today's indifference toward Bible principles is bringing about the immoral conditions mentioned by Paul in Second Timothy 3:1-5, 'in the last days critical times hard to deal with will be here. . .

"Jesus aptly describes our conditions as, 'men become faint out of fear and expectation of things coming upon the inhabited earth," Fetzik said, "but he also gave us a remedy for the moral breakdown when he taught us to pray, 'Our Father in heavens, Let your kingdom come. Let your will take place as in heaven, also upon earth'.
